NUMBER 34.

The Editor's Opinion

Regarding a Few Things Local And Otherwise.

ROAD-COMMISSIONERS.—Some times an editor can do a country some good by a small kick, and at the same time do no one any harm. The first kick we shall make this week will be at the road commissioners, and for the benefit of the traveling public, on the subject of sign boards. If there is any one thing that speaks well for a country it is its sign boards, that tell the weary traveler the direction and distance to his destination. Finger boards on our public highways have for the past twenty-five years been neglected in this county, and now is a good time to bring about a reform in this particular, and it is the duty of the road commissioners to do it, and it is their duty, whenever they have one put up, to put up a good one; one that can be read by at least all English scholars. We hereby call the attention of the commissioners and overseers, to section 25 of the present road laws, which is as follows:

§ 25 Every road supervisor or overseer shall, when directed by the county court, keep an index erected at the forks or crossing of all public roads in his district, upon which shall be inscribed in plain letters the name of and distance to the most noted place or places to which each road leads, the cost of which shall be paid as other road expenses.

It will be seen by the above that when directed by the county court, an index &c., at the forks and crossings of all public roads. Now let's see, if the county court has so directed these commissioners and overseers to put up these sign boards, if so they should by all means attend to it. The county court at its last term under the head of "Duty of Supervisors," made 8 orders to be complied with by these commissioners, the 8th section we publish directing them to see that proper guide boards are kept up &c.

It shall be their duty to see that proper guide boards are kept at all the forks and crossings of public roads, and to do and perform all other duties prescribed by law not specifically stated in this order.

Their duty is prescribed by the law and they should not hesitate to perform it. These sign boards should be on painted dressed lumber, in plain block letters so that all persons can read them. We noticed a few signs the other day that are an outrage on the taxpayers of the county. The boards are no good, the letters are not plain, the names of the places are not properly spelled, and the distances on some of them are misleading. If the tax-payers are to be burdened to pay for sign boards, let's have nice ones and good ones. Better boards were put up forty years ago than these. The county pays enough to have good lettered, well painted boards and the county court should see to it that we have them, just for the sake of the people and the good name of the county never never pay one cent for such finger boards as are being put up now by either the commissioners or the overseers. Good roads call for good sign boards and we ask the county court to never stop until we get them.

EXCITEMENT IN POLITICS.—At present politics are not creating the excitement in this county among our citizens that they are in some of our sister counties. There is no particular interest manifested between the three political parties at present, nor has the congressional race aroused that bitterness between the friends of the two candidates that is seen at some places, all of which we are glad to announce to our readers and the people over the district. We counsel moderation on the part of the friends of both, Mr. Stone and Hendrick; let each do all he can or likes in a friendly gentle way for his favorite, but be careful and not let their enthusiasm run so high as to create enemies with each other and damage the democratic party.

PALING FENCES.—We have been surprised during a few recent trips in the country at the miles of wire paling fences that have been built,

and that are now in use in this country. When they were first introduced, it was said that they would never become popular among the farmers in this hilly country, but that was a mistake. There is hardly a first-class farm in the county but what there is more or less wire paling fence on it. It is as cheap as the ordinary rail fence; and is much more convenient and does not take up so much land, besides there are no fence corners to grow up in bushes and briars. They last well, stand up better, and are not so much trouble as a rail fence. They can be built straight and always tend to adorn and beautify a farm.

THE DEMOCRATIC TICKET.—The democrats the county are again beginning to speak out in language not to be misunderstood. When the primary was over they went to work and have nothing to say about politics during the time they were so busily engaged on their farms, but since they have their crops in such good condition and are beginning to move about they naturally begin to express their sentiments in regard to what they intend to do at the approaching fall election, and if there is anything in the signs of the times the democratic ticket will be elected by a handsome majority. The democrats will never forsake their party until something better can be shown them, and so far it has never been done, therefore they will almost to a man stick to their nominees.

BIG TALKERS.—There is a certain class of men and women in this, as well as all other counties that at certain times know too much, and all other times don't know enough. Long before circuit court begins they can be heard loud and long detailing of this and that violation of law, by this and that person, but when court convenes and they are called before the grand jury they twist and squirm until the jury is convinced that they know nothing and if they were to tell anything no one would know whether to believe it or not. The longer we live the more convinced we are that the people who pretend to know most about the misdeeds of their neighbors know least. People should never announce the crimes of their neighbors in public unless they could swear to it in the grand jury room. The fact is some people don't know half so much as they pretend.

Any Page, Any Column.

A correspondent in the Columbus Hard-Times, had the following to say of recent visit of Mr. Hendrick at Bardwell:

"Hon. John K. Hendrick, a candidate for congress, dropped in on us Thursday night, and left Friday morning at 10:40 going south. Brother Sanders, of the Star, got a shave and hair cut, and smilingly met his political idol. For further information regarding this nocturnal visit we will refer you to last week's Star—any page any column."

Fruit as Food.

It is a fact that fruit does not form so large a part of our ordinary daily food as it should. While it is much more extensive than formerly, its consumption might readily be trebled with benefit to the general health. For the midday meal in particular fruit is peculiarly healthful and sensible and its use should be encouraged.

Few people realize that fruit is a food, not a mere dessert. If they could once be brought to regard it as a necessary article of their ordinary diet, there would be a home market for many times the amount we could grow for some years to come.—New York World.

Sea Bass weighing nearly 600 pounds are sometimes caught on the Pacific coast.

In the Soudan there are 60,000 people who are ignorant of Christianity.

China's national hymn is so long that people take half a day to listen to it.

ON STEEL RAILS.

A Man to Walk 1,000 Miles on a \$5,000 Wager—A Curious Feat.

WACO, TEX., June 12.—A novel feat in athletic performances is in progress in Texas now. Prof. Hugo, of Fort Worth, has signed a contract to walk 1,000 miles on steel rails of the railroads, to average not less than twenty miles per day, for \$5,000. He started from Fort Worth four days ago and arrived here late yesterday afternoon. He goes to Galveston, and from there back to Chicago via Dallas. He left this morning for the south.

The Party Paper.

It takes a level head to run a party paper and there is no doubt but many editors loose their head when they begin to run such a paper. The man who can run and edit a party paper as it should be and confine its utterances to the truth and not knowingly mislead its readers is a man to be trusted in any avocation of life.

There can be no doubt but one of the pests of today is the partisan organ. It defends its party, right or wrong. It suppresses the truth it suggests what is false; it misrepresents its opponents—when ever it expects thereby to benefit its own side. It juggles with its own moral sense. It confuses the public conception of rectitude. It does the devil's own work by misleading conscience, by making the worse appear the better reason by deceiving the simple, by calumniating the good. It prefers to be victorious rather than to be right. It esteems party success above the public welfare. It puts the triumph of its faction before the prosperity of the nation. It disregards the meaning of patriotism, and trains its followers to be unworthy citizens of the republic.

Soldiers in the Late War.

There were soldiers furnished by 42 states during our late civil war. Kentucky furnished 75,760, which was about three per cent of all the men who went to war in the United States army. There were only eleven states that furnished more men than the state of Kentucky, those furnishing the greatest number were, Illinois 259,092; Indiana 196,363; Ohio 313,180; Massachusetts 146,730; Missouri 109,111; Pennsylvania 337,936; Wisconsin 91,237 and New York 448,850—making, in all, that were contributed by other states a total of 2,779,304. 58,069 of these men who were enlisted in the regular army have been admitted and cared for by the "National Home for Disabled Volunteer Soldiers," which is under the control of a board of managers, consisting of the president, chief justice and secretary of war.

Gilbertsville.

Mr. Editor:—I haven't seen any-thing in your paper from Gilbertsville for a long time. I thought I would write a few lines to let you know that Gilbertsville is still alive, and is coming to the front. We have preaching three Sundays in each month at Gilbertsville; the Rev. W. B. Matthews the first Sunday in each month; the Rev. D. M. Green the second, the Rev. D. Nelson the third. Each denomination is wide awake, looking after the interest of their church. Mr. Editor, I want to tell you about our Sunday school. We have a splendid Sunday school. We have 53 scholars enrolled, we

are getting along smoothly. I will give you the names and the number of verses that our scholars have memorized and recited at our Sunday school.

Etta Duvall, 28; Mollie Gregory, 21; Beulah Covington, 21; Georgia Herndon, 9; Ernest O'Daniel, 38; Eva Hale, 17; Luther Duvall, 3; Willie Nall, 12; Austin Hale, 15; Leslie Nall, 6; Watt O'Daniel, 18; Mattie Washington, 33; Nera Gregory, 18; Mary Nall, 12; Minnie Luter, 23; Myrtle Later, 9; Flora Hale, 6; Susie Vickers, 34; J. A. Vickers, 8; Bertha Jenkins, 5; Worth Gregory, 3; Ella Jenkins, 4; Frank Pettway, 6.

T. W. GREGORY, Teacher.

The following is from a man who knows what he is talking about relative to the Star's idea of Hendrick's strength in Carlisle county.

"The Star says Hendrick will get all the votes of Carlisle. Rats! I hope every democrat in the county will paste this in his hat and see how far off from the mark the Star will hit. Doubtless Hendrick is good man and perhaps the Star has something better than policy for advancing his claims in such a bold way.

The above named papers do not or can not say aught against Capt. Stone or his record except the pitiful excuse that he has had the office long enough and therefore ought to give away and let some one else have it.

In conclusion I will state that the voters of this district are a long time since aware that if the halls of the United States congress were filled with just such men as the Hon. W. J. Stone we poor mortals would have quite a different time in this country."

Respectfully,
JUSTICE.

For fully two years, I suffered from rheumatism, and was frequently in such a condition that I could hardly walk. What has Stone done?

What has Hendrick done?

Columbus Ky., lost over \$25,000
last week by fire.

Billie Breckenridge can not be
returned to congress.

Vote for Stone and save the
country.

Can a rebel soldier vote against
Mr. Stone and afterwards feel
happy.

The congressional race is being
conducted in this county between
the friends of the two aspirants in
a genteel and friendly manner.
Whether it will so continue we
are unable to state but it is to be
hoped that it will and that demo-
crats will not act in such a way as
to eat crow.

When ever you hear a man ask
what has Stone done? Just wait
a few minutes and ask him who
discovered America, and he will
readily answer Gen. Jackson. Such
a man don't know who dis-
covered America or who killed cock-
robin. He knows just too little
to keep out of the fire.

Hon. Ben C. Keys must be a
wonderful man. The Kentucky
Populist in its last issue announces,
in one column, that he will address
the people at Miss Sallie Guess's
Springs near Canton on Saturday
July 7 and in another he will speak
to the people at Woodville on the
same date. Are these not like
other statements found in that
wayward journal—a little con-
flicting.

Mr. John K. Hendrick spent
last week in the city and while
here met many of the voters of
the county and he and his friends
did all they could to impress upon
them the great importance of cast-
ing their votes for him in the com-
ing democratic primary election,
but the success of their efforts
will only show up when Capt.
Stone comes under the string
with an increased majority.

There is no consistency in the
way some farmers act. A few
years ago they wanted a farmer to
represent them in congress, now
these same men don't want a far-
mer but want a lawyer, well gen-
tlemen if you conclude to make
the change and it turns out that
your interest is not well repre-
sented, don't complain. Yes, these

same persons are now joining the
forces and going hand in hand
with them that they were once
trying to defeat.

The news that come from the
surrounding counties all indicate
a fine majority for Capt. Stone.
If all the counties are like this
one he will have just enough op-
position to make him feel friendly
to his enemies.

There can hardly be a doubt that
the people many times elect adul-
terers to office, but it seldom
happens after they have confessed
it under oath on the witness stand.
Our word for it Billy Breckenridge
will never be elected to congress
again. He ought not to be, he
will not be, he cannot be.

The Bardwell Star two weeks
ago had so much to say about Mr.
Hendrick and used his name so
many times that it had to borrow
all of the capital H's from the
Clinton Democrat, the Hard-Times,
Fulton Guard and two offices in
Cairo. We undertook to count
the number of times the name
"Hendrick" appeared in that issue
but the job was too much for
such a moss-back editor as the
editor of the Tribune.

The Kentucky Populist did not,
in its last issue, so much as men-
tion the terrible rebuke and awful
arraignment of its chief mogul,
Hon. Ben C. Keys, that took place
in the court house in Benton on
the 11th day of this month, which
was the first day of our circuit
court. Its editor should have
been present and heard it. It was
terrible, it was awful, it was dis-
organizing to the populists of this
county, it was pitiable; their con-
dition was one that called for
mercy and tears. One of the old-
est populists in the county said
"he had always been told that
Keys was a fine speaker and a
strong debater but if this was his
best he never wanted to hear him
again." Men who hear him twice
never want to hear him a third
time because it is only a memor-
ized song sung in the same old
tune. Nothing new, nothing able,
nothing worth an hours considera-
tion by the thinking men of the
country. The time has come in
the history of this country that
the people want to know of what
its evils consist and a remedy for
them; the ranting of a disappointed
and mad curb-stone politician will
not suffice but something more
tangible must be presented to
them than the wild cat schemes
for woman's suffrage, sub treas-
uries and a money without value.

THEY ARE KICKERS.

The Populists are either born or
educated kickers and we can't
believe that before any man
can get into the "inwardness" of
of the party he is compelled to
take the "kickers oath," which
binds him as with "hooks of steel"
to kick against everything pro-
posed. Whether it be good or
be evil by the democratic party.
They are for their age apt scholars
in the kicking business for some
of them are hardly dry after being
born into the new party until they
are kicking about the action of
the democrats. After all their
complaints are summed up in a nut-
shell they only amount to a plat-
form that fosters strikes, idleness,
and wide spread discontent among
the only men who need all they
can get by their labor.

WHAT NEXT? LOOK!

The populist convention that
met in Kansas, ten days ago, went
a step further than usual. It re-
solved in favor of woman suffrage
and did not stop there, but de-
nounced the A. P. A. which was
another slap in the face to those
who are fighting the rapid en-
croachments of the Catholic
church on American institutions.
A party that will denounce the
only checkmate there is in this
country, to a church that despises
our school and our institutions,
should not receive a vote from
our protestant living people.
What will this new party do
next? Every act of it goes to show
the silent hand of the Roman
Catholic and its determination to
ride over our free schools and the
Christian religion! Can you see
the danger that is only a short
distance ahead of us? If you can
you can discover the figure of
the Pope. Will the christian men
and women of this country vote
for a party that denounces the A.
P. A? If they do, we only ask that
God save the country and our peo-

ple from the tyrannical power of
the Roman People.

Some of Mr. Hendrick's friends
in a private way, are trying to
make capital against Mr. Stone by
referring to a certain general law
that was passed in the Kentucky
legislature when he was a member
of that body. These same gentle-
men have been voting for Mr.
Stone for ten years and it seems
now to be a little late for them to
begin this private warfare on him.
We know all about the transaction
from beginning to end, and if they
think they can make anything out
of it let them turn loose, and if
they are not careful it may act as
a boomerang, and hurt the very
men they are wanting it to help.
If we mistake not the law these
gentlemen are referring to with so
much seriousness was asked to be
passed as a matter of justice to a
number of gentlemen in this
county as well as other counties
in the state by these same men,
who are now trying to move
heaven and earth against Stone
and in favor of Hendrick in this
county. Gentlemen toat fair or
the decision of the court of
appeals together with certain
letters will be published; then the
public will see the cat in the
meal tub.

It can be fairly stated that those

pleased over the days exercises,
especially the excellent dinner
that was spread by the good ladies
which they had prepared for the
occasion. The morning services

The Childrens day exercises
made it very entertaining to the

On the Fourth of July there will
be a celebration at Bethlehem
church which will consist in ora-
tions, preaching and singing.
Several good preachers and speak-
ers are expected to be present.
Everybody invited to come and

A knock down and drag out
occurred at Palma last Friday
night over some trivial matter.
The parties concerned were Sil-
vester Wade and Will Clark. The
extent of the fight was a black eye
and a skinned head for both men.

We learn that Miss Naomi
Reeves will teach our school at
Palma this fall. She is an excel-
lent teacher and we are glad to
have her with us. J. A. B.

LIVELY TIME.

The Marshal Tries Joe
Smith and Finds Him
Hard to Conquer.

There was a barbedue near
town last Saturday. Several peo-
ple were in town, but all were
peaceable and quiet until between
five and six o'clock in the evening.
Among the crowd was Mr. Joe
Smith an industrious farmer of
near Gilbertsville. He was out
here on business with his little
boy who was about four or five
years old. But Joe had inbibed
too freely in the juice and was in
a good fix for a fight, but nothing
further than his drinking, had
been done to indicate trouble,
until about six o'clock, when in
front of Stephens' confectionery,
he met C. H. Starks, the sheriff.
Smith asked him to loan him 40
cents; Starks told him he did not
have it; Smith then said, go to
h—l—d—n you, Starks only smiled
and said "that's all right;" Smith
then with a savage look, told
Starks to "shut his mouth;" Starks
in the twink of an eye took out
his pistol and said "I'll see if I
can't shut your mouth, I am not
going to be fooled with by you a
minute." At this moment, Mar-
shal Fiser and his deputy Dick
Heath took Smith by the arms
and Starks put his pistol in
his pocket and walked away.
They attempted to carry Smith to
the court house, but he being a
man of wonderful physical powers
they could not make much head-
way. When he got to the court-
steps he would go no further and
made two or three heavy surges
and was about to leave the offi-
cers stranded in air, but in order
to subdue him he was given a few
raps over his head with their bil-
lies, which soon brought the
blood which flowed profusely; oth-
ers were summoned and by the
assistance of men, he was carried
to the court house after which he
was put in the lock-up, and his
face washed, where he remained
only a short time until Pete Ely
and J. H. Little went on his bond
and he took his little boy and
went home. The trial is set for
next Saturday. The occurrence
created considerable excitement,
but no serious damage was done.
In the "jerk around," the officers
were more or less bruised and one
left almost shirtless. Whiskey
was at the bottom of all of it for
when Joe Smith is sober he is a
nice clever gentleman. It is well
that it all ended as it did, for the
chances were fair for a serious
difficulty. Such trouble between
good citizens is greatly to be re-
gretted, but it is hoped that the
gentlemen will make friends and
let it all pass without further
trouble.

Circuit Court Items.

Circuit court has been get-
ting along very nicely during
the past week, in a quiet way,
notwithstanding the town has not
been full of people. This is ac-
counted for from the fact, that
there has been no trial in which
the public took a general interest.
The grand jury was in session six
days and only indicted ten per-
sons: Their names and crimes
are as follows—John W. Hender-
son, horse stealing, he was tried
and sent to the pen for two years.
He was a young man from Carlisle
county and is now in the branch
penitentiary at Eddyville serving
out his term.

The Venus fly trap is a queer plant which grows in great numbers in North Carolina. The trap consists of a gracefully curved cup at the top of a tall stem without leaves. The cup has a cover which in its normal condition is open and inclined backward from the opening, to which it is attached by a little spring hinge. Within the cup and near the little hinge are two small hair like spines, which constitute the triggers of the trap. A single touch upon either of these triggers is enough to close the trap. The location of the spines renders it impossible for a fly or other small insect to spring the trap until it is in such a position that it will be securely caught.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of Testimonials. Address: F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines, enroute to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to travelling often produce a diarrhoea. Every one should procure a bottle of this Remedy before leaving home. For sale by R. H. Starks.

An Editor Loose.

This is the way the editor feels when he does up his sentiments in blank verse:

"I would fly from city's rule and law—from its fashions and its forms cut loose—and go where the strawberry grows on its straw, and the gooseberry grows on its goose; where the catnip tree is climbed by the cat as she clutches for her prey—the guileless and unsuspecting rat on the ratnap bush at play; I will catch at ease the saffron cow and the cowlet in their glee; as they leap in joy from bough to bough on the top of a crowslip tree; and list while the partridge drums his drum, and the woodchuck chucks his wood, and the dog devours the dogwood plumb in the primitive solitude."

"Oh let me drink from the moss-grown pump, that was hewn from the pumpkin tree! Eat mush and milk from a rural stump, from folly and fashion free—new gathered mush from the mushroom vine, and milk from the milkweed sweet—with pineapple from the pine. And then to the white-washed dairy I'll turn, where the dairy maid hastening hies, her ruddy and golden-red butter to churn from the milk of her butterdies; and I'll rise at morn with the earliest bird, to the fragrant barnyard pass, and watch while the farmer turns his herd of grasshoppers out to grass."

"O. I. Hood & Co., Lowell, Mass.: 'I write to say that I have been a sufferer for four years with neuralgia in the eyes. I am a man of regular habits, 42 years of age, and employed for the past seven years by Heath, Springs & Co., well-known merchants and bankers of this place.'"

Rev. Geo. H. Means, Covington, Ky.:—"In one night's time the Electro-poise relieved me of brain congestion and vertigo. My wife was relieved of a severe attack of neuralgia in one hour."

Rev. John I. Rogers, Danville, Ky.:—"A kinswoman of mine who was apparently rapidly sinking into the grave, suffering with sciatic rheumatism and in extreme pain day and night, in a very short time obtained freedom from all pain, walks without crutch or cane and declares that she is well. It is a mystery to me, almost a miracle."

Rev. W. F. Wyatt, Morning View, Ky.:—"I began to improve from the first application of the 'wonder working gum'; my general health is better than it has been in years. I believe it to be a God given remedy."
